

ZAKARI ABUBAKAR AGIGASOKOA

7 Chief Ifeanyi Street, Ilaje Bariga, Lagos Nigeria | (234) 8062257480 | abubakarzakari1703@gmail.com | <https://www.linkedin.com/in/maesterzak/> | <https://devmaesters.com/portfolio>

Profile

Software Engineer with 3+ years of experience designing and developing fast, scalable, and maintainable applications. Skilled in React, Next.js, Django, PostgreSQL, and GraphQL for building robust full stack solutions. Experienced in core banking systems engineering, with a focus on Finacle customization, FI service development, and Connect24 integrations. Passionate about creating reliable software that drives efficiency and delivers measurable value.

Experience

FINACLE APPLICATION SUPPORT & CUSTOMIZATION | WEMA BANK PLC | MARCH 2024 – PRESENT

- Provided end-to-end support for the Finacle Core Banking application, ensuring system stability and operational efficiency.
- Customized Finacle modules to align with evolving business requirements and regulatory standards.
- Implemented a bulk account migration menu enabling seamless transfer of accounts from one SOL (branch) to another, improving operational workflows.
- Delivered reliable support for Finacle FI (Financial Institution) services, ensuring smooth interbank and internal communications.

BANKER'S-IN-TRAINING TECH PROGRAM | WEMA BANK PLC | SEPTEMBER 2023 – FEBRUARY 2024

- Completed a 16-week training program covering teamwork, communication, leadership, and technical skills.
- Gained hands-on experience with SQL, Finacle services, UNIX, and Oracle database management.
- Built strong foundations in credit analysis, accounting, and financial statement review.
- Underwent a 6-week on-the-job rotation in digital banking and IT services at Wema Bank Alat office.

FULL STACK DEVELOPER | DEVMAESTERS | SEPTEMBER 2021 – PRESENT

- Developed and maintained multiple client projects using **React**, **Next.js**, **Django**, and **PostgreSQL**.
- Built fully responsive and high-performance websites using **HTML**, **CSS**, **JavaScript**, **React.js**, **Next.js**, and **Django**.

CLOUD ENGINEERING INTERN | CECURE INTELLIGENCE LIMITED | 2021

- Using AWS console and cli to deploy and manage various AWS resources for web and mobile applications.

Education

BACHELOR OF ENGINEERING IN MECHANICAL ENGINEERING | SECOND CLASS UPPER | 2015 - 2021 | FEDERAL UNIVERSITY OF TECHNOLOGY, MINNA

FULLSTACK DEVELOPMENT — ALX-T | 2022 | UDACITY ALX-T SCHOLARSHIP

Projects

- **Cloth2Life**
<https://cloth2life.ai/>
Instantly generate high-quality lifestyle photos for sites, marketplaces, social media, and ad campaigns—eliminating the need for professional photoshoots.
- **DevMaesters Website**
<https://devmaesters.com/> | <https://github.com/maesterzak/DevMaesters-Frontend>
A full-stack development platform featuring programming tutorials, project showcases, and a developer community. It offers structured learning paths and hands-on projects to improve coding skills and share knowledge.
- **Bulk Account Migration Menu**
Designed and implemented a custom Finacle menu to **seamlessly transfer multiple customer accounts from one SOL (branch) to another**, improving operational efficiency and reducing manual workload.
- **Staff Confirmation Portal**
Developed a Finacle API wrapped using Boomi to **verify staff loan repayment status**, enabling automated checks to determine if a staff member has defaulted on a loan.
- **Blacklist BVN API** Developed a Finacle API wrapped using Boomi to blacklist and unblacklist BVN numbers, enhancing security and compliance workflows.
